

Miss L Holdcroft

Schooling

I went to Thistley Hough Academy in secondary school, and then to Alleynes Sixth Form afterwards.

I completed my undergraduate degree with the Open University while working, and then my teacher training with Manchester Met!

Further Education and Qualifications

My degree is in Psychology with Statistics, and my postgraduate is a PGCE for Secondary Mathematics (so surprising I know!).

Jobs

I worked in a chip shop when I was in Year 11. It was the best job ever because I always felt rich as I didn't have any bills yet.

I then worked in a gym as a fitness instructor while I was at college. This was the worst job ever because my dad wouldn't give me a lift and I had to cycle 20 miles there and back.

After this, I worked in schools as an LSA while I was at university, until I qualified to be a teacher!

When I was younger, I wanted to be ...

A history teacher. For real.

Interests and hobbies

My main hobby is running – I like racing (when I win) and exploring new trails. I also enjoy gardening, baking, playing guitar, video games, reading and taking naps.
